# codeaprint.COM

Codeaprint.com puts you in charge of file-labeling systems from your very own desktop. Because it's web-based, there's no specialized label-creation software to install. You don't need to worry about sensitive and confidential data leaving your computer. You can administer and control account access, and you're able to have an unlimited number of simultaneous users from as many computers as you need.

With codeaprint.com, you have the ability to print brilliant color-coded labels on-demand, complete with individualized bar codes and graphics. Match your existing systems, or customize with our help, then print on your laser or inkjet printer. It's as easy as 1-2-3!

1 Choose your label design.

We have a wide selection of pre-made label designs that you can browse. Otherwise, give us a call, and we will create a customized design just for you.

2 Enter or import your data.

Once you have chosen your design, use our easy program to input your data. Whether you type the information manually or upload a spreadsheet, you'll be able to preview and edit the results to ensure they are accurate and to your liking.

3 Print and affix your labels.

Using your desktop printer and the adhesive paper stock we've provided, you can print your labels at your convenience. Adhere to your folders, and you're done!
