Flip-Up Doors

Fully retractable doors store out of the way for easy file retrieval and replacement.

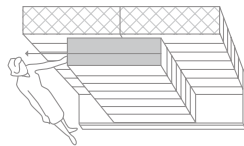

Please allow 2-3 weeks for delivery.

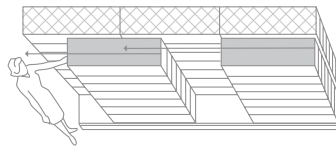

moveableSHELVING

Save even more space by converting your stationary shelving into moveable shelving with a track system. Low-profile track is placed directly in front of your wall-mounted row of stationary shelving, and an additional row of shelving is placed on a carriage that moves from side to side with a simple push of the hand. Track systems include: leveling track, anti-tip hardware, and heavy-duty carriages to ensure smooth rolling movement. Shelving is sold separately. Additional track may be attached at any time to accommodate future storage requirements.

5-Unit Track System,
pictured with Stak-N-Lok™ (above)

3-Unit Track System (left top)

Includes track for 2 stationary back units and 1 sliding front unit.

5-Unit Track System (left middle)

Includes track for 3 stationary back units and 2 sliding front units.

7-Unit Track System (left bottom)

Includes track for 4 stationary back units and 3 sliding front units.

Track systems increase overall shelving height by 4". Width includes 2" of over-travel at each end. Item numbers above depict 5-shelf-high units. 6- and 7-shelf-high units are also available. Please allow 3-4 weeks for delivery.
